Northumberland, Tyne and Wear NHS Foundation Trust	Trust-wide	General psychiatry	All	All	Met	Met	Met	Met, and exceeds	Met	Inadequate	Partially Met	Two cases of bullying and undermining. Both cases are complex and the LET and school are aware of both.
Northumberland, Tyne and Wear NHS Foundation Trust	Trust-wide	General psychiatry	General psychiatry	Higher	Met	Met	Partially Met	Met, and exceeds	Met	Inadequate	Met	Access to psychotherapy training less available at higher level. Improving access to academic psychiatry and leadership also identified as challenges.
Northumberland, Tyne and Wear NHS Foundation Trust	Trust-wide	General psychiatry	Core Psychiatry Training	Core	Met	Met, and exceeds	Met	Met, and exceeds	Partially Met	At Risk	Partially Met	Emergency psychiatry. In the school survey 2016, 71% felt that their exposure to emergency work was sufficient for their training needs and curricular requirements. This was rated green in the survey. This result predated the most recent change to increase exposure, namely a compulsory week with either crisis or liaison services on rotas where exposure to emergency psychiatry was felt to be poor.
Northumberland, Tyne and Wear NHS Foundation Trust	Trust-wide	General psychiatry	Broad Based Training	Core	Met	Met	Partially Met	Met	Met		Partially Met	One report of undermining by BBT trainee. Investigated by Trust and LET informed. Detail available if college tutor report from SGP. BBT scheme will end this year. We had a very small number of BBT trainees, one of whom was affected by workload issues at SGP.

Northumberland, Tyne and Wear NHS Foundation Trust	Trust-wide	General psychiatry	General Practice	GP	Met	Met, and exceeds	Partially Met	Met, and exceeds	Met	At Risk	Partially Met	available in college tutor reports from SGP and NGH. GP posts are under review to improve the training experience. GP posts scored as a red outlier for adequate experience in GMC survey. We have a good quality control process with the GP school. Some posts are highly rated but there are some posts at SGP where we are not meeting the standard. The GMC survey and individual post feedback are consistent and indicated that the problem is at SGP. There have been some comments that the postgraduate teaching is more suited to specialty trainees. GP trainees have access to the GP teaching day.
Northumberland, Tyne and Wear NHS Foundation Trust	Trust-wide	General psychiatry	Foundation Programme	Foundation	Met	Met	Met	Met, and exceeds	Met	At Risk	Met	No reports of bullying and undermining. Enhanced governance arrangements are now in place with formal feedback sought on posts, which are highly rated.
Northumberland, Tyne and Wear NHS Foundation Trust	Trust-wide	Medical psychotherapy	All	All	Met	Met	Met	Met, and exceeds	Met	Sufficient	Met	
Northumberland, Tyne and Wear NHS Foundation Trust	Trust-wide	Medical psychotherapy	Medical psychotherapy	Higher	Met	Met	Partially Met	Met, and exceeds	Met	Sufficient	Met	Structure on one post is too onerous in relation to training and is under review by the school.
Northumberland, Tyne and Wear NHS Foundation Trust	Trust-wide	Medical psychotherapy	Core Psychiatry Training	Core	Met	Met	Met	Met, and exceeds	Met	Sufficient	Met	Half posts
