Welcome

This is your welcome guide to Ferndene. Ferndene is an inpatient service/unit containing different wards.

Ferndene provides specialist, assessment and treatment for young people with complex mental health, behavioural and emotional needs, including those with a learning disability.

Depending on your needs you will be supported on different 'pathways of care' during your admission at Ferndene.

The nursing team will discuss this welcome guide with you and answer any questions that you have.

The Trust values the very important role of family and friends caring for children and young people who use our services. We believe that carers, as well as yourself, should be involved in decisions about your care and treatment and we will talk to you more about this while you are at Ferndene.

dandelion clock

When I arrive

When I arrive

You will be met by the nurse in charge. They will make sure you know why you have come to the unit. They will explain what will happen during your stay.

You will be asked some questions that will help the nurses to care for you. Staff will take a photograph of you and put it on your personal file.

One of the nursing staff will help you to unpack your things. They will make a list of everything you brought with you. Certain items like DVDs may be put in a secure store to make sure that they are safe. You will be able to access these with support from staff.

Staff will show you around the service/unit. They will introduce you to other young people and staff. One of the nursing staff will stay with you until you have settled in, and tell you about your ward.

Your nurse will contact your family/carer to answer any questions they might have, as well as supporting you to stay in contact with your family/carers. The care team have access to wi-fi to support you maintaining contact with your friends and family.

You will be given a copy of this welcome guide and advised who your named nurse will be. They will introduce you to the ward and talk to you about:

- Bedrooms, toilets, bathrooms and lounge
- Storing your personal belongings
- Using the telephone

What will my bedroom be like?

Everyone has their own bedroom and use of a bath or shower room. You can decorate your room with appropriate posters, however we need to provide bed coverings.

For safety reasons only some personal belongings can be kept in your room. Other personal belongings are kept in safe storage on the ward and you can access them.

You can tidy your room during free time. If you have a shower room it will be cleaned for you.

Each bedroom has an Oxehealth Digital Care Assistant system. The Oxehealth system checks your breathing and pulse without the need for someone to disturb you. The Trust's 'Sleep Well' initiative aims to give you six hours of undisturbed sleep while staying on the ward, something that will help you get well.

Sometimes, room searches are carried out to keep everyone safe.

Talk to staff if you have any questions about your bedroom.

What will I bring?

You can bring your own clothes to the hospital. During sports and activities the young people wear sportswear.

If you need medicine, the nurses will keep this safe for you.

Each ward has its own laundry room with a washing machine and tumble dryer.

You will be able to wash and dry your own clothes. If you have not done this before we will help you learn these skills. Your clothes can also be taken home to be washed.

You will need to bring your own toiletries including:

- toothpaste
- toothbrush
- things to wash or shower with
- any other toiletries you like to use
- towel

What should I not bring?

- anything very expensive
- pets
- DVD games or CDs that are not age appropriate

This is not a full list, ward staff will give further advice about the other items not allowed.

Smoking

Smoking is not allowed. If you do smoke, staff will help you to manage this.

Will I need money?

You can bring a small amount of money.

Staff will help you with managing your money when you are at Ferndene.

Assessment

Soon after arriving a doctor will check that you are well. They will ask you questions about yourself.

The doctor may do some tests like:

- listening to your heart and lungs
- taking your blood pressure
- checking your ears and eyes

All the information collected will be used to begin to plan your treatment so we can do everything we can to help you get better. We want to help you get home as soon as possible.

Planned one to one contact sessions

You can expect to meet with your Named Nurse on a regular basis.

You can talk about issues that are important to you.

These may include:

- Changes in your mood, thoughts and feelings
- Medication and any side effects
- Leave outside of Ferndene and care plans.

What choices do I have?

You will be involved in discussions about your care and treatment. If you are detained under the Mental Health Act, staff may have the power to prevent you from leaving the ward or to insist that you take medication. These decisions will only be made in your best interest. We will listen to your views and the views of your carers.

What is a Care Plan?

A care plan states your needs, the range of services required and who will provide these services. It might include things like your medication and your physical health needs. You will be involved in developing your care plan and will be given a copy of it to keep.

What is a Care Programme Approach (CPA) review?

A CPA review is a meeting to talk about your needs and checking they are being met.

They are held regularly and you will be included and updated of these of these by your care team.

You (or your carer) and anyone providing services can also ask for a review. If you feel that a review is needed, you can talk to your named nurse.

What is a risk management plan and observation levels?

We will talk with you about situations and activities which may not be good or safe for either you or those around you and agree your risk management plan.

This plan will tell us what it is safe for both staff and you to do. This will depend on what has happened before you came here and on your behaviour in the unit.

This may mean that sometimes you will not be able to do things that you would like to do, but don't worry because staff will explain things to you.

Your risk management plan will say how staff will best support you and keep others safe during difficult times.

Your observation levels will say how many staff will need to be with you to keep you and everyone safe.

Mental Health Act

The Mental Health Act 1983 is designed to keep a young person who is experiencing serious mental distress safe.

You will be informed about your rights. We will talk to you and your family about this and give you a leaflet.

Your right to appeal will be explained.

Depending on what section you are detained under you may have to accept treatment with medication. Information about your medication will be provided – the doctor or nurse will help you to understand about any side effects.

The Trust has a helpline for confidential advice about medication. You and your carer can call the helpline between 9am and 4pm.

The helpline number is **0191 245 6604**.

Sharing information with carers

We will share agreed information about your care and treatment with your carer. We will also provide them with information about care plans, medication and advice on managing an emergency.

During your stay

Who will look after me?

The Ward Manager is in charge of the ward. They are responsible for the operational running of the ward. The Specialist Nurse works alongside them and takes care of the overall clinical activity on the ward.

The staff team will make sure your care and treatment is of a high standard. All of the team will support you and be involved in caring for you. Your named nurse will help and support you, but you can talk to any of the staff if you have concerns, worries or questions about your treatment.

The staff wear uniforms and you will be able to distinguish professions based on the colour of their tunic/dress.

Other staff involved in your care could be:

- Activity Lead
- AHP Assistant Practitioners
- Advocate
- Arts Psychotherapist
- Clinical Case Managers
- Day Unit Team
- Dentist
- Domestic staff
- Dietician
- Family Therapist
- GP
- Occupational Therapist
- Patient Advice and Liaison Officer
- Pharmacist
- Ward Clerk/Secretarial staff
- Patient Advice Liaison Officer
- Podiatrist
- Physiotherapist
- Psychologist
- Psychiatrist
- Reception staff
- Responsible Clinician/Consultant Psychiatrist
- Speech and Language Therapist
- Teachers

If you have religious or cultural needs the staff will help to support you. This could include needing a different diet or dressing differently.

You can talk to a chaplain if you would like, please ask a member of staff. There is a multi-faith room at Ferndene which you can visit with a member of staff.

What will I eat?

How do I get my meals?

All of the wards have a list of the meals you can choose from each day. If you would like them to, the nursing staff will go through the menu with you and order the food you have chosen.

There is a dining room for you to eat your meals.

You can have snacks and drinks. Staff will help you make healthy choices.

We have menus which are suitable for:

- Vegan/vegetarians
- Soft/easy chew/pureed
- Halal
- Kosher
- Gluten free

If you need a special diet, please discuss these options with a member of staff.

Mealtimes are usually around:

- Breakfast, 9am (weekends are later)
- Lunch, 12pm-1pm
- Tea-time, approximately 5pm- 6pm
- Supper, 7.30pm

Before you go for your meal, the dining room will be prepared by staff.

Staff will support any celebration events you may wish to take part in through-out the year.

Tuck shop

The shop is run by staff and young people. Staff will help young people manage their money. You can buy healthy snacks and drinks, toiletries and stationery.

What can I do during the structured day?

The structured day/week is your individual programme which is tailored to meet your needs throughout your week. This will allow you to take part in a range of activities such as:

- daily living skills – personal care, laundry
- leisure pursuits – shopping, hobbies, sports
- education, life skills and training

We will support you to identify interests and goals and work with you to adapt activities to reach your goals.

As part of your care you will be able to attend therapy, education and activities including:

- English
- Maths
- Information and Communications Technology
- Science
- Cookery
- Sports and recreational activities

Staff will spend time with you planning a range of activities such as Individual or Group Therapy and Education sessions. During your stay the Activity Lead and AHP Assistant Practitioners will meet with you to plan and organise a weekly range of social, recreational and vocational activities in our full size sports hall and gym

Evenings and weekends

You will also have time to take part in social events, follow your hobbies and interests or simply relax, play or listen to your music.

Ferndene has its own Youth Club which is open daily.

Who will help me?

My family/carers

Your family, friends and carers will continue to help you whilst you are in hospital. It is important that you are able to keep in touch with each other. You can work together, with the hospital staff to try and understand what kind of help you might need whilst you are here and when you leave hospital.

Your Staff Team

The multidisciplinary team are specialists who have training and experience in helping people with mental health difficulties. You may be supported by all or some of the people in the multidisciplinary team. The team will make sure your care and treatment is of a high standard.

Consultant Psychiatrist/Responsible Clinician

These are the people who are the lead person in the team who plans your overall care. A Responsible Clinician can be a Psychiatrist, a Psychologist, Nurse, an Occupational Therapist or another member of the multidisciplinary team.

Nursing Team

There are a number of different nursing roles. An explanation of the different roles are listed on page 20.

Psychology Department

Psychologists aim to understand your current issues using a range of assessments, including direct observations and interviews. This information is used to develop a formulation of what has contributed to and maintained your difficulties.

Arts Psychotherapists

Arts Psychotherapists are also part of the Psychology department. They can offer you the opportunity to take part in Art, Music, or Drama therapy sessions. You might find being creative supports you to communicate your thoughts and feelings, and make sense of your experiences.

Family Therapy

Family therapy helps family members and friends to understand and support each other. It can help when families are feeling overwhelmed, when they aren't sure what to do for the best or when they might feel stuck repeating patterns that hurt one another. A family therapist might try to help family members work together when someone is hurting, or just feeling out of sorts.

yourself. They will help you with self-care, food preparation, things you like to do and want to become more skilled at doing.

Occupational Therapy Department

Occupational therapists will help you to develop independence skills and activities for your daily life. This means practicing how to do things more by yourself. They will help you with self-care, food preparation, things you like to do and want to become more skilled at doing.

Activity Lead

Activities available in the unit are coordinated by the Activity Lead. They will ensure you have a balanced structured day programme and access to all therapy, education and vocational opportunities at Ferndene. Activities will be supported by AHP Assistant Practitioners who will ensure that you have access to meaningful occupations and the chance to engage in preferred activities.

Speech and Language Therapy Department

Speech and language therapists support the young people with communication difficulties. This means finding out about what you understand, how you communicate/talk to others and how you like other people to communicate/talk to you.

Dietitian

You may work with a dietitian if you need help with having a healthy balanced diet or help with weight restoration or eating difficulties. They can give you expert advice about the best type of foods to eat and help to develop a suitable meal plan tailored to you.

Education

The Newcastle Bridges School (NBS) are an alternative provision that delivers the education to the young people in Ferndene, as part of their structured day. Subject specialist teachers are available to support you in the core subjects and you can have Art, Music, Horticulture, P. E., Citizenship and Enrichment /Enterprise lessons too; we want you to attend your lessons and enjoy them too.

Our teachers deliver externally accredited qualifications and follow the National Curriculum. Your timetable will be personalised and bespoke to your needs. We work closely with your home school and if it is appropriate we liaise with them to assist with your transition back there.

The Day Unit

The Day Unit is open daily during week days for anyone on the Mental Health Pathway. Our aim is to help you maintain a daily routine whilst in hospital by contributing to your structured day programme. The Day Unit team is made up of various multidisciplinary team professionals. These include a Nurse, Occupational Therapist, Mental Health Practitioner and Clinical Support Assistants. On a day-to-day basis you will be given the opportunity to attend group therapy sessions tailored to your specific needs during your stay. These

groups will hopefully give you some new skills that you can use when you leave hospital to help you manage in the community. You will also have the chance to take part in activities that are meaningful to you and that you enjoy doing to help with your motivation. We also work closely with the Education team to ensure your day is individualised and specific to you. The Day Unit sessions take place in the Pods which enables you to spend some therapeutic time away from the ward and socialise with your peers during group time.

Chaplains

Chaplains can help you with any religious or spiritual needs you may have and can provide religious services. Chaplains are also able to support you during your time in hospital pastorally and spiritually by giving you space and time to talk about anything you are struggling with. We can see you on the ward or you can come with a member of staff to our chaplaincy space and talk with a chaplain there.

Ferndene nursing team

All of the staff below makes up your nursing team. These are the people who work closely with you to make sure you receive the best possible care whilst you are at Ferndene.

Ward Manager – each ward has a Ward Manager who will be responsible for the operational running of the ward.

Specialist Nurse – working alongside the Ward Manager is a Specialist Nurse who will be responsible for the overall clinical running of the ward.

Clinical Team Lead – nurses coordinate and oversee activities of the ward and clinical team members to ensure compassionate, effective and efficient delivery of high quality clinical care for patients.

Staff Nurse – mental health and learning disability nurses are responsible for planning and providing support and medical and nursing care to people who have a range of mental health issues. You will have a Named Nurse who will take a specific responsibility for the co-ordination of your care.

Nursing Associates – nursing associate is a new role within the nursing team. Nursing associates work with healthcare support workers and registered nurses to deliver care for young people. It is also a stepping stone to becoming a registered nurse.

Band 4 Assistant Practitioners – an assistant practitioner is a non-occupational specific role that has been developed to assist organisations to deliver high quality, patient-centred care in a variety of settings. Although they are not registered practitioners they have a high level of skill through their experience and training.

Support Workers/Health Care Assistants/Nursing Assistants – a mental health support worker role involves providing support for patients who have mental and physical health needs. Monitoring the patient's mental state. Assisting the mental health nurse in their clinical duties. Maintaining the patient's personal hygiene and wellbeing.

Clinical Case Managers – mental health case managers create individualized patient plans designed to help them meet specific desired life goals. They coordinate with the rest of the mental health team, including doctors and nurses, to establish these plans. Mental health case managers resolve crisis situations involving patients as they arise.

Other areas at Ferndene

Café Amelia

Court yard

Dining room

Sports hall

Will I be able to go outside Ferndene?

Young people can go on leave if it is deemed safe and appropriate to do so. Staff will help you plan leaves and learn about keeping safe.

Some young people have been able to attend activities such as sports clubs, drama workshops and college. Staff will support you to maintain your appropriate preferred activities. There is a town nearby and we often go there on leave to buy personal items and ingredients to cook with.

Keeping people safe

All staff are here to keep people safe. If you feel you have any concerns about safety discuss this with any member of staff.

There are 'daily safety huddles', where young people and staff have an opportunity to discuss how safe everyone feels. There are monthly 'Young People's/Patient Community Meetings' where you can talk about what is important to you.

Information about consent

You should always be involved in making decisions about your life and your future. Your family or carers may also be involved in discussions along with doctors, nurses who are involved in your care.

When you say that you agree to something happening, you are giving your consent.

You can ask as many questions as you want to.

Treatments

You might need to see a doctor, dentist, nurse, psychologist or therapist. They will ask for your consent before they carry out any tests, assessments or treatments.

Therapy

Things like anger management, speech and language therapy, counselling, art, music and play therapy, or group sessions such as social skills.

Before you make up your mind, you need to be given information about:

- What they want to do
- Why it needs to be done
- What any treatment will feel like
- How it might help you feel better

How will people know that I am giving consent?

You can say yes. You can say no. It's up to you.

You might be asked to sign something to say you agree.

Do you need help to make up your mind?

You might want to ask questions like:

- How long will it be before I am better?
- Will I need to go into another hospital?
- What will happen if I say no?

Talk it over with a friend, relative or carer. Take time to think about it. You can also talk to your Independent Advocate. See details on page 28 to find out how to contact an advocate.

Information the Trust keeps about you

The Trust needs to keep information about you so that we can provide the best care for you.

We keep the following information:

- Name and address and your next of kin
- Notes of when we've seen and talked to you
- Information about what treatment or care you have had
- Information from other health workers, or family and people who care for you.

We do this to make sure that:

- You get the best care possible
- Health workers have the right information about your care and treatment

Everyone who works in the Trust must keep information about you confidential. Sometimes we need to share information with other organisations that are providing care for you, like Social Services. If we do share information we would normally talk to you about it first and ask for your permission.

You have a right to find out what information we hold about you, please ask staff about how to do this.

Your safety and security

Fire safety

If you hear the fire alarm going off, staff will direct you to the safest exit. It is important that you follow their instructions and try to stay calm. We have fire alarm testing on a Wednesday morning.

Infection control

Please speak to a member of staff if you have concerns about the cleanliness of the hospital.

Safety and restraint

Physical restraint is only used when there is an immediate danger of violence towards yourself or others. This will only ever be carried out by staff who have received training in how to use these skills safely.

Covid Restrictions

We will follow current government requirements of the time, regarding the wearing of face coverings, sanitisation, social distancing and proof of vaccination status.

Problems, complaints or suggestions

Cumbria, Northumberland, Tyne and Wear NHS Foundation Trust has a complaints policy. We will give you a leaflet about how to make a complaint.

If you think that we could improve our service then please let a nurse know your idea.

Who can provide me with advice?

Staff are always available for help, support and advice. You can also contact:

- **Patient Advice and Liaison Service (PALS)**
If you have any concerns about NHS services PALS will listen and give advice and support to you and your family.
 - North of Tyne Tel: 0800 032 02 02 Monday to Friday, 9am-4.30pm.
Answerphone available at all other times.
- **Coram Voice** Tel: 0808 800 5792 Monday to Friday, 9.30am-6pm.
An independent charity, Coram Voice support and help young people to be heard.

Keeping in touch

Can I have visitors?

We have visiting rooms with TV and space to spend time with visitors.

We encourage contact with family and friends but for safety reasons visits have to be approved by the multidisciplinary team. All visits are best booked in advance.

Visitors under 18 years who have been approved must still visit with an approved adult.

We will make every effort to ensure your visits happen. Where possible we encourage visits after 3.30pm and at weekends so that the young people can attend school, therapy and activities. Some patients and visitors may need to make phone calls or have visits outside of these times and we will help you plan this. We understand that sometimes visitors have a long way to travel and have other needs.

Visits may be supervised. This means staff will stay nearby to keep everyone safe. Sometimes staff might be in the room with you but they try not to impose on your visit.

When possible visits can take place outside of the unit.

Using the phone

We will work with you to ensure you maintain contact with your family and friends via the phone. If you don't have your own mobile phone we have access to wi-fi so you can use other hand-held devices.

It would be helpful if your family and friends could ring after 6pm, after education and activity/therapy sessions, in order to have longer phone calls. The telephone number is **01661 83 8400**.

Individual agreements will be made with you, your family and the professionals who work with you to agree when your phone calls should be planned.

Keep in Touch (KiT)

A patient network gives you access to a computer so you can use the internet or Skype family/friends with supervision from staff.

Letters

Any letters will be given to you unopened, but staff will supervise opening letters.

Staff can help you read and write letters if you need help.

You can contact social workers, advocates, PALS officers and solicitors anytime.

Electronic communications

All wards have access to i-pads that you can use to communicate with others.

Ask the nurses when you arrive and they will be able to help you.

Moving on

How will my discharge be planned?

Plans around your discharge start soon after your admission. You and your carers will be involved in the planning of any discharge.

Staff on the ward will be able to help with concerns you might have about these or any other issues and provide you with contact details of your community team members.

What is Care Programme Approach (CPA)?

Care Programme Approach (CPA) is a way of planning and co-ordinating your care after you leave hospital. It helps make sure that you are supported in a way that fits your individual needs.

Who will be my Care Co-ordinator?

Your care co-ordinator will usually be a nurse, or other professional. You should always be informed of the name and contact details of your care co-ordinator.

Where can I get help and advice outside of the hospital?

Young Minds – Information about looking after yourself, common mental health problems and your rights.
www.youngminds.org.uk

The Mix - support service for young people.
Helpline: 0808 808 4994
www.themix.org.uk

How can I get involved?

As a member of our NHS Foundation Trust you can be as active a member as you would like, from just receiving regular information about the Trust to getting involved in issues that you care about. The choice is yours!

To become a member, all you need to do is complete a membership application form or join on-line at www.cntw.nhs.uk and click on 'About us' and choose 'Membership'. Membership is free and members can also benefit from discounts for many shops and services.

If you are 16 years old and over and interested in learning more about becoming a Governor for the Children and Young People's Service, please contact the Membership Office on 0191 245 6827 or email members@cntw.nhs.uk

More information can then be provided about the criteria.

Tell us what you think

We would like to know what you think about the Ferndene welcome guide, your views will help us to improve the guide.

We would be very grateful if you would take a couple of minutes to answer the following questions. Staff can help you to do this - thank you.

1. What do you like about the welcome guide?

Comments

2. What do you dislike about the welcome guide?

Comments

3. Is there any other information that you would like included in the welcome guide?

Comments

4. Is there anything else you would like to tell us about the welcome guide?

Comments
